About Me: I am a Computer Science student with a technical background focused on software development and data analysis. I am interested in applying programming, databases, and logical thinking to solve real-world problems, working collaboratively and in an organized manner. I have experience in academic and professional projects where I contributed from technical analysis to clear communication of results, adapting to new tools and contexts. I am looking for opportunities where I can continue learning, manage my time effectively, and add value to technology teams.

Education

- **Universidad de Montevideo**
 - Computer Engineering (March 2021 – November 2022)
 - Bachelor's Degree in Computer Science (March 2023 – Present)
- **Liceo N°1 Daniel Armand Ugon**
 - High School Diploma – Physics & Mathematics Track

Certifications

- The Complete Web Development Bootcamp – Udemy (2025)

Full-stack web development program covering HTML, CSS, JavaScript, Node.js, Express.js, APIs, databases, and real-world web projects.
Certificate: <https://www.udemy.com/certificate/UC-8ec5bb5a-2bb9-4c08-8a6a-fe7d8ccc2ec8/>

Technical Skills

Frontend: HTML5, CSS3, JavaScript, React, JQuery
Backend: Node.js, Express.js
Databases: PostgreSQL
Languages: Python (pandas, matplotlib), Java
Tools: Git, GitHub, Excel (Solver)

Work Experience

- **Fraud Prevention Representative – Mercado Libre (Nov 2024 – Jul 2025)**

Analyzed thousands of transactions with a data-driven approach.
Made critical decisions using internal metrics to minimize fraud and false positives.
Used investigation tools and risk analysis methodologies.
Reference: +598 92 714 822 | florsosa11@hotmail.com
- **Computer Science/Telematics Lab Assistant – Universidad de Montevideo**

Provided technical support to students in the Informatics laboratory.
Assisted in solving exercises and using university software tools.
